# CIADI First Annual Recognition Ceremony

**Monday November 19, 2001**

**5 – 7 pm**

**2155, Guy Street Building, Room ER 307-4**

**S**ince its inauguration, Concordia Institute for Aerospace Design & Innovation (CIADI) has taken major steps to meet its goals of conducting collaborative aerospace research in the form of graduate and undergraduate students' projects in design and innovation.

One of its first initiatives was to present students with opportunities to enhance and complement their education in terms of design integration.

To date, 26 students have been hired by CIADI to work on aerospace related projects with the following industrial partners: *Bombardier, Bell Helicopter, Pratt & Whitney Canada, Heroux, CMC, CAE, and EMS.*

Concordia University and its seven industrial partners would like to commend the 26 undergraduate students for their outstanding contributions.

On November 19, 2001, a reception will be held to officially acknowledge the accomplishments of these future aerospace engineers.
